

### **Amendments to the Abstract**

Please replace the Abstract on page 296 with the following Abstract. This amendment will allow the Abstract to reflect the allowed claims.

#### **Page 8, lines 3-11:**

A system, method and ~~article of manufacture~~ computer program are provided for generating error and summary reports for a data load. ~~First, a~~ A plurality of records to be loaded in a database are received. The records may include medical records. A data management template corresponding to the records is chosen. ~~Next, it~~ It is verified that all records to be loaded match the data management template. The records are sent to a database for loading in the database upon validation that the records match the data management template. A report of records that match the data management template and records that do not match the data management template is compiled.
